Narcotics For Patrol

In this exciting two day course students will be taught an overview of an entire drug arrest. From signs and symptoms to courtroom testimony and everything in-between will be discussed in depth. The first day will start off with how to develop the probable cause through signs and symptoms to make a drug arrest. All the drug categories will be reviewed to include all the signs and symptoms associated with each category. The seven step DAR (Drug Abuse Recognition) process will be explained as well as demonstration of the eye exam using a pupilometer. Finally, the day will end with a discussion and examples on how a drug arrest report should be written. The following day will begin with a discussion on court room testimony and interviewing. When you need to advise someone of their Miranda rights will be discussed in length. "Wall stops" and "cold stops" will be defined. The definition of, and, use of informants along with current Marijuana investigations will be discussed. This is an outstanding class that was designed for officers from all facets.

Instructors: Mark Brewster – LASD Narcotics
Glenn Walsh – LASD Narcotics

Location: Diamond Bar Center
1600 S. Grand Ave.
Diamond Bar, CA. 91765
